Will ---

The outstanding FYR recommendations for Keystone Sanitation Landfill – the only site on HQ's list – are all resolved (one is a duplicate and will be deleted). I also discussed some of the logic with Chris and he agreed.

Let me know if you need detailed information. I'll finish updating the rationale and description in SEMS now.

Chris

Chris, did you send me an email letting me know you made the changes? If you did, I apologize. If not, can you just shoot me something for my record. Basically just indicating which Sites were updated? Thanks.
